LUMOTAST 16

The compact series

LUMOTAST 16

SMALL PUSHBUTTON – BIG EFFECT

The **LUMOTAST 16** series is extremely compact and functions with characteristic reliability due to high-quality gold/silver contacts. As a result, they can be used in many industries. The threaded ring enables the assembly of elements in a 16.2 mm mounting hole within seconds.

Pushbuttons

The compact pushbutton reveals its magnitude best when there is little space. Because even then, it can be easily mounted.

Illuminated pushbutton

The illuminated pushbutton can be labelled by the customer with C-LAB labelling inserts and fully illuminated.

Emergency stop

The LUMOTAST 16 emergency stop is extremely compact and yet safe. Both design versions are convincing choices due to a mounting hole diameter of 16.2 mm.
